
Svane News.

07-10-2022

This is the first newsletter "Svane News" - I will try here to update everyone about new things in the company. Should there be input - good stories from everyday life, I would love to hear from you ☺. If you have any good pictures, you are welcome to send them to me.

Contents:

My first month has passed at Svane Entreprise ☺ - I have spent the first time getting to know the company well - I have been well received where I have come - so thank you all for that.

The picture left. was my first digging task together with Kim Rosenlund – Think it went very well ☺.

There are a lot of business processes that I have to familiarize myself with - but it comes one stroke at a time, as they say. Thanks to everyone.

In addition to the trip with Kim, I have visited 2 projects in Kolding and one in Ribe.

A visit to Dons near Kolding was also where we had a nice Friday with Grill sausages and soda.

I can feel when I come out that all of you talk with great enthusiasm and passion.

In the office I have found my place - I know where the coffee is - the printer works - Interviews have been held with all employees from the office - so I have got an impression of what the individual does on a daily basis.

After sales were invited to Agerskov kro for a cup of coffee where we were greeted and I was allowed to tell a little about the present and the future.

So, overall, I got off to a really good start and got a very positive impression of the company and all employees.

Torben Ilsøe Nielsen

Information

- IT in the company must have an upgrade, this will happen from 01-01-2023. We will switch to a Microsoft Office 365 solution, i.e. we will work with a Cloud-based solution. We have changed our collaboration partner from Centex to IT-Confidence. Initiation of the new solution will be implemented in the office first and subsequently for those of you who work in field - Niels will help you with setup and intro for employees in field.
- A new Svane website is being worked on - the first draft is on its way from our partner - which will be announced to everyone when the page is finished and ready to be displayed - this will be our profile to the world - see www.svanenetreprise.dk. Expect to have something ready here sometime in the fall.
- Invitation to Christmas lunch has been sent out for 10-11-2022 at Agerskov kro.
- Aftersales – Kaj has chosen to end his career at Svane Entreprise and retire – I would say thanks to Kaj for his time with Svane Entreprise. Malene has been hired and she had first day of work 06-10-2022. Malene will be involved in settlement in relation to EVII and Norlys as well as planning tasks.
- A meeting was held with Norlys on 20-09-2022. We receive great praise from Norlys for our way of handling things – Praise hereby passed on ☺.
The cooperation With Norlys works well. New tasks have been put on standby for the rest of 2022, as Norlys has spent significantly more money on their projects than expected - right now we don't know how this affects Svane - we hope to receive a production plan for the rest of 2022 as soon as possible. The individual projects that will be affected this year and what will be planned and will be moved into 2023. We are in close dialogue with Norlys regarding the planning of tasks for the last quarter of this year.
- Likewise, a meeting has been held with EVII - also a really good meeting - who have come in really well with new tasks from their side over the last period - so very positive.
- In Esbjerg, the area will be cleaned up over the next period - as soon as there is time for this - the project has started with Arne in charge and it will be very good ☺. Please notice when you have something you don't know where to put please ask the guys in car workshop they will help. Order is for everybody.
- Our canteen area by the warehouse / workshop will soon be ready both as a meeting room - Depot and as a lunch room - as soon as the project is ready it will be put into use.
- A questionnaire has been sent out to everyone in "field" in relation to APV and a meeting will be held for office people on 04-10-2022.
- It has been decided in the working environment group that documentation and data sheets for products we use in the future will be uploaded to "Work", this work is carried out in collaboration with the AM group. Work is an online portal where all documents will be stored - more information about this when it will be launched.

Thank you to everyone for your daily efforts for Svane Entreprise
