Norly's contract

For your information, it is taking a bit longer than expected to get the contract in place with Norlys.
 We expect everything to be in place within a few weeks (After Easter).
 There is agreement on prices and areas. So it is the details that need to be sorted out.

Officially, we have been given the following areas. This has also been announced to everyone in the administration at Svane in week 12.

Everything marked with Green are areas where Svane is the first contractor.

		Udrulning	Eftersalg	Ad hoc. Driftsopgaver

Right now, we are working hard on assignments in Henne and Varde, as well as a new assignment in Ribe, which is to be started up with 1300 installments.

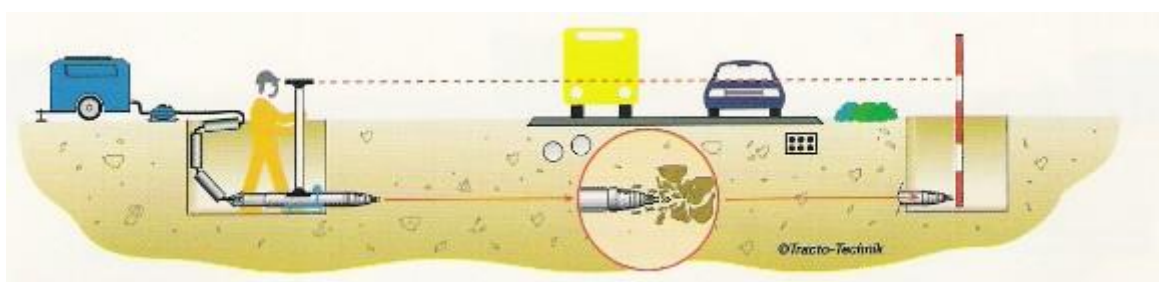

Tools – Rockets etc.

It has been found by foremen and project managers, that not everyone is equally good at getting tools inserted into the back of the car.

When it lies on the bed of the car, it is **not** covered by insurance in case of theft.

Therefore, after use, please always make sure it is safely placed in the car, so that we do not tempt the faint-hearted.

If in doubt, please contact your immediate manager.

Swan Guard Scheme

In connection with our agreement with Norlys, there is a 24/7 - 365 days a year on-call service. There have been some changes in manpower in relation to this arrangement recently.

The team is now in place: Oliver – Kenneth – Jonas – Andreas – Kevin – Brian. Thanks to you guys for this. In addition, I can inform you that an agreement has been made with Atea that we will also run a shift schedule for them in 2023.

Niels & Arne

As announced by email on 27-03-2023, Niels & Arne has decided that Pensioner life will soon be a reality 😊.

Both will be in the office the next period On/Off.

Remember to write in your calendar regarding reception for both, Friday 30-06-2023 at 12.00 – further information will follow 😊.

Tasks that they have performed over the last period will be distributed among others. Niels Schack takes over many of the tasks from Arne 1:1.

If you have any questions, you are of course welcome to contact your immediate manager about this.

Leica Measures Equipment

For your information, new measuring equipment has been purchased - 2 sets this year, as well as 1 set for February 2024.

The equipment will be delivered, ready for use, just after Easter.

I am quite sure that there is someone who is looking 😊 forward.

New car / cars 😊

Niels Andreasen has a new car – a Ford Kuga. The car has been delivered week 13, so if you see him with a broad smile the next period - then that's the reason 😊.

For information, we are in the process of obtaining prices for the purchase of 4 new cargo cars. We hope that we can get the ordering started right after Easter 😊. As it is right now, they can probably be delivered by August/September 2023.

Holidays
