## Worxs App

Login was sent out to everyone in the field on 14-12-2022, and a reminder again on 31-01-2023 in relation to our chemistry database, so this is just a reminder, that everyone has also downloaded the app and looked in the chemistry database.

## First aid kits

If you need a refilling of the first aid kit in the car, contact the immediate manager who will collect the orders.

## Bones in Kolding

During our project at Kolding Pedestrian Street, we have, while digging, come across human bones just 35 cm under pavement. The site was immediately closed for further work, until the archaeologists had been on the site to inspect the bone remains.

As can be seen from the following, it appears that they are remains from an earlier cemetery from around 1600 – 1700s.

Fortunately, the square was opened fairly quickly so that the work could move on.

Rumor has it that Malene Asmussen is still driving around with the bones in the car 😊.

The following Facebook post taken from Museum Sønderjylland.

## Opslag fra Museum Sønderjylland - A...

Udsnit af et prospekt af Kolding fra Resens Atlas 1677. Udsnittet viser bl.a. kirken og dens omgivelser på daværende tidspunkt. Kirkegården var over lange stræk indrammet af de omgivende husrækker, og kun hvor der manglede bygninger, var det nødvendigt med et egentligt hegn, som hovedsageligt bestod af plankeværk. Den røde prik viser, hvor knoglerne ca. blev fundet i sidste uge.

**Education Esbjerg**

As of 01-05-2023, Svane has become part of the following with a limited membership.

See more at the following link [E.1 | Education first \(e1education.dk\)](https://e1education.dk)

**Education Esbjerg describes itself on its website as follows.**

E.1 is a completely new educational concept that, with a global outlook, a high level of ambition and an eye for the whole person, rethinks the role and format of education.

**Gift for Everyone**

In recent weeks, gifts have been distributed to everyone 😊

Hope the gift has been enjoyed during the St. Bededag holiday.

Should there be one of you who would like to know more about the bottle, you can find info on the website below, and I wonder if the bottle will soon be sold in stores.

See link [VELKOMMEN - POPE SPIRITS](#)

**Teams group**

As part of our transition to Office 365, we now have the option to use Teams. This applies not only to users in the office, but also to users in the field.

The app can be downloaded on phone and tablet – via this you can start a chat (message / SMS) or you can video chat as many of you probably already know with face time.

Should there be a user out there who needs help getting it installed, please contact your immediate manager, or someone in the office.

In addition, a group has been set up in the office in relation to **IT questions** – often it is the case that you almost certainly have a colleague, who can answer exactly the challenge you have. This group will also be shared with all employees in the field, once most have joined Teams.

### **Insurance claims - For everyone's information**

At Svane, we have a strong focus on insurance claims – a working group has been set up that meets regularly about the status of claims.

Damage can happen - we all know that. It will always be a combination of lack of information – carelessness – communication between handman and digger – yes, there can be many reasons. We know that a great deal of effort is being made to avoid these tiresome injuries.

Historically, we have looked at what there have been of claims, both in 2021 and 2022 – statistics are kept on all types of claims and what is sent to the insurance company.

For your information, Svane is liable for damages up to 10 years from the time of execution. The photo below shows damage to sewer pipes – the damage is about 9 years old.

The good news is that injuries for the first 4 months of this year are significantly lower than previous years.

So thank you very much 😊 for that and kudos to all of you for your care.

## **Telia – phone / internet / Data**

As of 01-05-2023, we have entered into a new agreement with Telia, which should mean significant opportunities for greater data consumption in the field and better telephony.

In connection with the new agreement, some improvements have been made;

- Phone calls on our main number are now with a welcome when calling in.
- The recipient now takes the phone via his PC and can forward to the person to whom the call is for.
- For all mobile no. it is possible to download an app - all users with company no. will over the next week or so receive a text message from Telia, where you must follow the link that is in the sms one.

In this app that you download on your phone – will be a contact list on all employees in Swan company phones i.e. you do not have to correct your contacts, this is done from the office and will always be updated.

- You can also see the status of the person you want to call – red busy – green available.

The app looks like this.

## **Reception**

**Remember to put a big mark Friday 30-06-2023 at 12.00 in your calendar - here is a reception for Niels and Arne in Esbjerg - more information will follow.**

As always, I would like to hear from you if you have input, good stories from everyday life or good tips colleague-to-colleague😊. If you have any good pictures, you are welcome to send them to me.

Svane News is published as a Danish and English version.

Thank you all for your daily efforts for Svane Entreprise.😊

Torben Ilsøe Nielsen
